All Purpose Seasoning

The new Jayshree All Purpose Seasoning contains all the flavors to spice up that snack or meal, and is handy enough to carry with you in your car, or to leave on the table, next to the old-fashioned salt and pepper. Whatever your heart desires this Seasoning can give you just the right amount of flavor, without overpowering your favorite foods.

This custom blend of over 20 herbs and spices from around the world carries the taste and aroma that will definitely get your senses going. Containing rare items such as Orange Peel, Red Bell Peppers, Green Bell Peppers, Celery, Garlic, and Onions and a unique blend of red and white peppers, it still continues to be an all natural product, and more flavorful than the regular salt on pepper on French Fries. Just like all other Jayshree products, there is NO MSG and NO Additives of any kind what so ever mixed in.

Now available in an attractive unbreakable bottle with the choice of easy to pour or sprinkle lid we have made it very easy for you to use and have found this container to be more efficient then the generic "bag of spice" and this container ensures your favorite seasoning stays fresher then the normal salt and pepper "open-top" shakers.

Jayshree All Purpose Seasoning is also an ideal addition for chicken, steak, fish, vegetables or even pizza or any of your other favorite dishes. Try it on these items...
